PROFILE

Software Developer with a Master of Computing and 3+ years of commercial experience across frontend engineering, AI and computer vision research, cloud architecture, and IoT systems. Skilled in React, TypeScript, Python, and AWS, with a track record of taking projects from concept to production across the full stack. Open to roles where technical breadth, problem-solving, and quality of output matter.

EXPERIENCE

Front-End Developer

2020 - 2023

Farapayam · Tehran, Iran

- Built and maintained responsive web applications in a commercial team using JavaScript, HTML, and CSS
- Translated UI/UX designs into reusable, production-ready components across multiple projects
- Integrated REST APIs to power dynamic data displays; debugged and resolved production issues
- Collaborated with designers and developers using Git-based workflows

PROJECTS

AI Strawberry Disease Detection

Master's Thesis

Hybrid YOLOv9 + DETR model achieving ~90% accuracy on 9,000+ images. Owned the full ML pipeline from data curation to evaluation.
